SECOND RUNNERS UP YEAR 2021-2022**

Mooting is a legal argument where students simulate the role of court lawyers to present their case before a judge, in the same way as would happen in an appeal hearing. This is a great way of developing students' academic and professional legal skills. Mooting is an essential activity for those considering a career at the Bar and even more desirable for those looking at Law professions.

This competition is organized by the University of Dundee Mooting Society as a global competition for High School and College students, usually grouped according to geographical regions.

Winners must demonstrate best skills in research in the areas of law, construct persuasive legal arguments to support their case and then deliver them clearly, confidently and concisely. Students also have to show expertise in responding to questions from the moot judges.

THE BEST EARTH DOCUMENTARIES TO WATCH

Are you feeling overwhelmed with a feeling of helplessness when confronted by the damage we're inflicting on our planet?

Well, you can definitely begin by sitting down and watching a documentary with your family and friends that will help you better understand our planet, climate change, and human impact.

Education is one of the first steps we can take to start living slowly, mindfully, and with the Earth in mind.

The following documentaries have been thoughtfully made to show you all the beautiful things we can accomplish together. Which one are you going to watch this weekend?

TOMORROW:

Released in 2015, this documentary showcases creative alternatives that will alter your perception of agriculture, economics, energy, and education.

"We didn't start with 'Shall we save the planet?' because that was too grand. We just started with where we are."

Focusing on a community effort, a love for our planet, and innovative thinking, this is a wonderful look at how incredible humans are when they're saving the planet.

"There are solutions, and if we give it everything we've got [and] if we all join our forces and our hearts, we can all start to change the world ... tomorrow."

COWSPIRACY: THE SUSTAINABILITY SECRET:

Released in 2014, it follows the destructive dairy industry and sheds light on its impact on the planet. It focuses on the dairy industry's impact on global warming, water depletion, deforestation, extinction of species and oceanic "dead zones".

"We're in the middle of the largest mass extinction of species since 65 million years..."

MORE THAN HONEY:

Released in 2012, this documentary dives into the role that bees play in our agricultural industry. They bring our attention to the fact that bees are dying at an alarming rate, and we aren't sure why. What will happen when they go extinct as a third of our food production depends on bees?

"If bees disappeared, man would have only 4 years to live."

THE IVORY GAME:

Released in 2016, its filmmakers were under cover for 16 months, documenting the deep-rooted corruption that is at the heart of the international ivory trafficking crisis. It showcases how the entire trade network works, starting from the poachers to the traffickers and finally to mainland China. As dangerous as it is, the rewards are greater: encouraging people to dabble further into this international life of crime.

"Traders in ivory actually want extinctions of the elephants. The less elephants there are, the more the price rises. It's a race against time."

MINIMALISM

Released in 2015, encourages people to look beyond their material possessions and acknowledge that "you're not going to become happier by consuming more".

Ryan Nicodemus is a minimalist who took control of his life by having very little possessions. He didn't want to be told what to buy, when to buy it and end up buying things he didn't even need or want.

Not only is our overconsumption detrimental to our planet ... it is harming us too.

On 12th June, 2022 Senior Social Committee of Visa Oshwal Community organized a Program to re-open the Senior's Lounge at Mahajanwadi after over two years. This Lounge was operational every single day of the month, serving refreshments and organized activities for the Senior Members of the Community before the COVID-19 began.

Since the Mahajanwadi had prior bookings for other private functions and the COVID-19 Protocols have been strictly observed, catering for both the Program followed by Lunch was only done for a few Senior Members. The Members were delighted and extremely happy to meet other Members after such a long break.

Mrs. Binduben Shah welcomed all and the Program began with a Prayer.

The Chairman, Mr. Jinit Shah addressed and welcomed the gathering and informed them the Senior Social Committee would like to continue catering for Senior Members. In his speech he requested for Volunteers to come up to serve the Seniors at the Lounge.

Dr. Shaina Shah, Chairperson also extended Mr Jinit's greetings and welcomed all, introduced the Sponsor of the Program and Lunch. She requested Members to come up to showcase their individual talents and Senior Social Committee would organize the activities accordingly whether it was to train others, or display or introduce new games etc.

The Seniors were served with Lunch. It was one of the most happiest moment to observe with smiles on everyone's face.

- ✓ Wash your hands before and after touching your mask.
- ✓ Make sure the mask completely covers your mouth, nose, and chin.

- ✓ Do not touch the mask when wearing it.
- ✓ When removing your mask, don't touch your eyes, nose, and mouth and wash your hands immediately.
- ✓ Do not wear the mask below your nose or push your mask under your chin to rest on your neck.

Protect yourself from COVID-19 by practicing the following:

DO NOT
SHAKE HANDS
